

Will Aczel's Record of ACTION

1 Action on Parking and Potholes

Alongside Lib Dem County Cllr Michael Mitchell, Will is backing calls for parking changes where residents want them. We are also lobbying the County Council to fill our potholes!

Michael is pushing the County Council hard for real action.

2 Opposing cuts to local services

Will and Michael called out Labour's cuts to local services. They met with the Citizens Advice Exeter team about the impact of these cruel cuts.

Exeter residents don't deserve to suffer cuts to vital local services caused by Labour's reckless vanity projects.

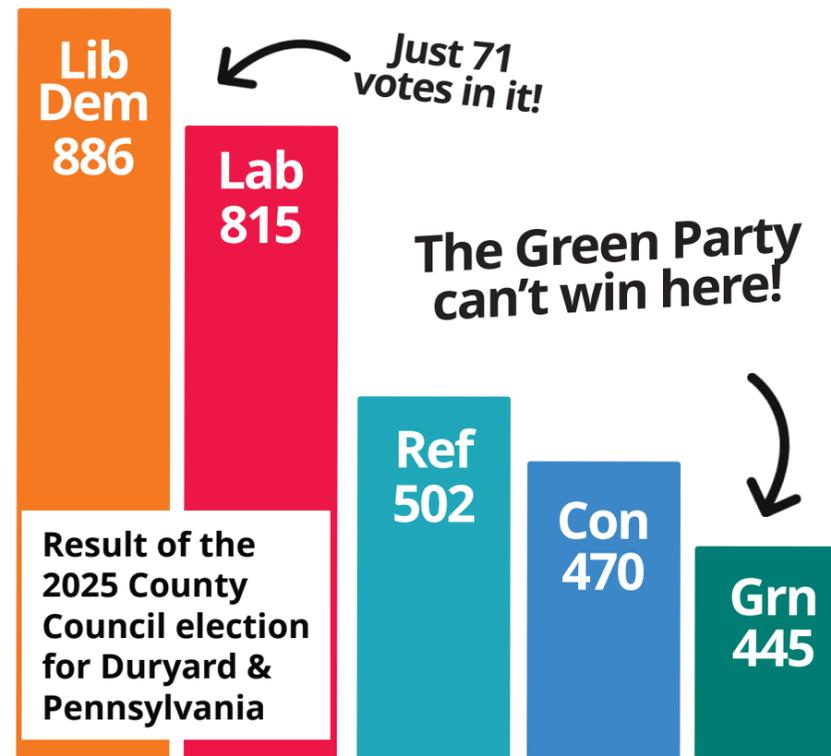

3 Fighting for better bus services

Will and the local Lib Dems have been lobbying Stagecoach and the County Council for more investment.

Will surveyed local people and took your views back to them both - making sure your voice on how to improve our bus services was heard.

It's a clear choice here between your **Lib Dem team** and **Labour**

The Liberal Democrats are **STANDING UP TO REFORM UK**

The Lib Dems are beating Reform in by-elections across the country.

In Devon, the Lib Dems have won every by-election since last year's local elections - holding off Reform.

The Conservatives and the Green Party finished a long way behind here last time. Voting for them only helps Reform - and Labour.

"While Labour and the Tories lost both votes and seats to Reform UK, the Lib Dems did the reverse, gaining seats and capturing three county councils."

The Guardian

The Lib Dems are the party 'most likely to see off Reform UK'

YouGov

On Thursday 7th May back the

LOCAL CHAMPION

our area deserves

- ✓ Fixing Exeter's broken roads and real action on local parking problems
- ✓ Restoring local services that we rely on
- ✓ A strong voice who will stand up for everyone in Pennsylvania

Liberal Democrats

Will Aczel

Pennsylvania's local champion

A real local champion for Pennsylvania

Fighting for our fair share of funding

With Exeter's local elections back on, people throughout Pennsylvania are throwing their support behind Liberal Democrat Will Aczel.

Will was raised locally and he went to Stoke Hill School. He lives locally and works for SunGift, a local solar energy company.

“ I want to be your voice championing Pennsylvania on the City Council.”

Will is a proven campaigner - having stood to be our MP at the last general election. He has spoken with over 900 Exeter residents on their doorsteps about the issues that matter to you.

He has already helped the local Lib Dems hold Labour to account for their failings, including on them cutting local services like Citizens Advice without real consultation.

Will said: "I'm honoured to be your City Council candidate. Pennsylvania is an area that is very important to me, and I am fighting for the fair deal that we all deserve."

Working hard all year round

Half of Labour voters disappointed by Starmer

THE SPECTATOR

More and more people are saying... Labour have lost their way

It's clear people are feeling let down, both by this Labour Government and our Labour Council.

Labour were elected to Government on the promise of change - and of hope.

But instead they have backed away from those values people expected them to stand up for.

And here in Exeter, Labour have wasted millions of pounds of our money on their vanity projects like St Sidwell's Point and Exeter City Living.

It's clear that Labour aren't listening to us. They even tried to stop these elections from happening!

Across Exeter, people are asking: who can we rely on to stand up for us and deliver real change?

The Liberal Democrats are fighting on the issues that matter most to you.

In Exeter, the Lib Dem team are opposing Labour when they get it wrong. You can back us for positive change.

TIME TO END LABOUR LET DOWN

Labour continue to waste millions of pounds of your money on their expensive vanity projects like St Sidwell's Point.

City Council candidate Will Aczel and the local Lib Dem team in Pennsylvania are the only alternative to more Labour waste and let down.

In the last few years, the Labour-run City Council have cut millions of pounds from local services - all while wasting millions on their expensive City Centre vanity projects.

They have ended direct funding for our local Citizens Advice and slashed funding for street cleaning. All this while local people continue to struggle with the rising cost of living and anti-social behaviour continues to be

a problem in our city centre.

Labour have also siphoned off £18 million that had been intended for local infrastructure projects to pay for their vanity projects like St Sidwell's Point. Our community is suffering from Labour's financial mismanagement of our city.

City Council candidate Will Aczel said: "Labour have let our city down for far too long. Their reckless financial record has led to cuts to vital local services. Exeter deserves better than this.

"By voting Lib Dem on 7th May, you can tell Labour: Enough is Enough!"
